

2019 OPERATIONS SEMINAR & TRADESHOW

Wednesday, February 13, 2019 Hosted by City of Vancouver

Join PWABC for our 3rd Annual Operations Seminar. The conference will showcase three streams focusing on Operations, Leadership, Safety & Innovation. You can partake in everything from a pump tear down or opt to take a boat trip across the inlet for a tour of the City of Vancouver’s green infrastructure projects. For operators, the program has been approved for 0.6 EOCP CEUs.

This one day event will not only highlight key trends in public works and leadership, but will feature innovative ideas and industry health and safety programs. By attending this conference, you will have the opportunity to grow your network, increase your knowledge on public works and operations and have fun with likeminded individuals.
